

Muon Spectroscopy Training School

ISIS Facility, STFC Rutherford Appleton Laboratory

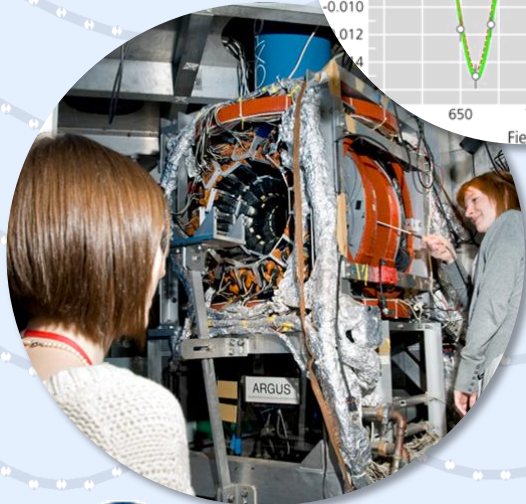

12th - 17th May 2014

An Introduction to Muon Techniques

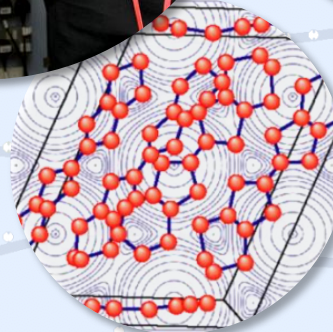

Lectures, practical aspects and hands-on experience of muon experiments

For PhD Students and Post-Doctoral Researchers

Applications of the muon technique in magnetism, superconductivity, semiconductors and organic materials

Deadline for Applications
28th February
2014

Science & Technology Facilities Council

ISIS

Further details and an application form are available from:
